

# Behavioural Interview Workshop

*“By far the best training I’ve been to in ages. Liked the small groups, concise notes, and lots of group discussion and analysis. Facilitator was excellent at drawing out the group and getting us to reflect. Highly practical, relevant and informative.”*

*Fleur Hope – 2007  
Big Brothers Big Sisters.*

Many of us that have conducted job interviews generally do a pretty good job, but if you are human you are fallible. First impressions, stereotypes, halo effect and ‘similar to me bias’ makes the recruitment process a minefield. Emerging unscathed is not uncommon, but with less luck it can hurt.

Academics have long been advocating ‘behaviour based interviewing’ as the only credible way of conducting a job interview - up to twice as likely to identify the best applicant.

This workshop will challenge your thinking about the way you judge people. It will give you the knowledge and skills to conduct a behavioural based interview and provide the opportunity to master these new skills with others from similar sectors. You will walk away with a concise but highly relevant resource for future interviews, giving you more confidence when it counts.

**Venue :**  
Community House  
141 Hereford Street  
Christchurch
